

SCHOOL PROFILE

Minuteman High School is located in Lexington Massachusetts on a 65-acre campus just west of Route 128/I-95 at the intersection of Massachusetts Avenue and Marrett Road (Route 2A). We are a four-year public high school serving ten in-district towns plus many other cities and towns in Eastern Massachusetts.

The school is accredited by the New England Association of Schools and Colleges, and all of its programs operate under MGL Chapter 74 and the auspices of the Massachusetts Department of Elementary and Secondary Education.

Academic classes and career major classes are delivered on a weekly rotating system (one week academic, one week career major). Enrollment is approximately 575 students across eighteen career majors.

Curriculum Opportunities

College preparatory courses in Math, Science, History, English, World Languages and Business Management and honors courses are offered to students who successfully test to the appropriate level. AP English Literature and AP Calculus AB are also available to senior students. Several dual enrollment courses including psychology, physics and English Composition are also offered to students. The Cooperative Education program allows qualifying juniors and seniors to work for pay in their field of study approximately 40 hours per week during the career major week. In addition to a high school diploma, graduating seniors are eligible for industry credentials. In some career majors, hours may be applied toward licensing and apprenticeship program requirements.

Programs allow qualified students to: test out of a course, gain college credit while at Minuteman, or take a course through independent study/internet.
