

Our Mission

Minuteman Technical Institute values collaboration with business leaders, community partners, and other post-secondary institutions. Minuteman provides career and technical education that cultivates student passion while offering rigorous and practical learning opportunities to adult learners. Through a challenging hands-on curriculum, students develop the academic, vocational, and technical skills necessary to be productive members of a global community. We value life-long learning that fosters personal and professional development in a safe and respectful environment. Minuteman is committed to preparing all students for success.

Post-Secondary Programs for adults at MTI

Live a Better Life.

Join High Growth Industries.

Train with Experts.

Receive the Attention You Deserve.

Industry Recognized Certifications

Students will graduate with a certification in their program as well as, receive OSHA 10-Hour, American Red Cross First Aid/CPR/AED, and Hot Works Certifications.

Professional Skills

MTI also prepares students with the necessary skills that will set them apart from their competition. All students will confidently prepare a professional Career Plan and brush up on their interviewing skills. Additionally, students will participate in an entrepreneur training program to identify important components to running their own business.

Excellent option for **adults changing careers** or **high school graduates** taking a **GAP year**.

Open House

August 29 (6:00 p.m. to 8:00 p.m.)

Minuteman Technical Institute provides students with the required qualifications to confidently seek out and successfully compete for desirable roles in diverse high growth industries. This includes Advanced Manufacturing, Automotive Technology, Cosmetology, Culinary Arts, Electricity, Licensed Practical Nursing (LPN), and Metal Fabrication and Joining.

Work-based Learning Opportunities

In partnership with our Advisory Committees, all students will have opportunities to participate in work-based learning experiences. These types of experiences foster employability skills that employers want, as well as the academic and technical skills necessary to be successful in a career pathway
