CA ADMINISTRATION GOALS

It is the intent of the School Committee that the district employs qualified personnel to administer the Minuteman Regional Vocational Technical School efficiently and to require the Superintendent to organize the administration in a manner that will make clear the functions of each position and the relationships among them.

The Superintendent will establish clear lines of communication, both vertically and horizontally, and will form any staff councils or committees needed to provide for efficient conduct of school business. In order to engage in this process in an orderly and effective fashion, each individual and group will be given particular, clear-cut responsibilities. Channels will be established so that the recommendations and decisions of each group can be heard and reviewed by the chief administrative officer concerned, and, where appropriate, by the Superintendent and School Committee.

The organization and administration of the school will balance responsibility with commensurate authority, subject to the reserved legal powers of the School Committee. This means that a staff member, when assigned a responsibility or a position, will be given the authority to make the decisions necessary to perform the assigned tasks.

CBB RECRUITMENT AND APPOINTMENT OF THE SUPERINTENDENT

In the event of a vacancy in the office of the Superintendent, the following procedures will be followed:

1. The Minuteman Regional Vocational Technical School Committee will review its policies with reference to desired qualifications and position description as well as level of salary and benefits.
2. The School Committee will take special care to assess the needs of the school district with reference to change and stability. Change, movement, and progress may be in order for the immediate future. On the other hand the school district may have need for a period of stability with a slower pace of change. In large measure, a Superintendent sets the tone and pace of educational improvement for the school district.
3. The School Committee may proceed in one of three ways: Appoint a sub-committee to act as a search committee; use the whole Committee as a search committee; or secure expert assistance to conduct the search process and submit the names of a limited number of applicants for interview.
4. Applicants have the responsibility for submitting evidence to the Department of Elementary and Secondary Education (DESE) that they fulfill the certification requirements for the position of Superintendent. They will also cooperate with any testing or interview requirements of the DESE. Information provided to the Committee by the DESE will be an important consideration in weighing the relative merits of appropriately credentialed applicants.
5. Those responsible for carrying out the search for a new Superintendent are reminded of the steps involved in the process: preparing a presentable and attractive notice of vacancy; publishing the notice of vacancy within and outside the school district; securing applications and credentials of applicants; screening applicants down to a manageable number for interviews and visitations; negotiation of terms; and selection.

The Superintendent may establish such permanent or temporary councils and committees as deemed necessary for assuring staff participation in decision making, for implementing policies and regulations and for the improvement of the educational program.

Functioning in an advisory capacity all councils and committees created by the Superintendent may make recommendations for submission to the School Committee through the Superintendent. Such groups will exercise no inherent authority. Authority for establishing policy remains with the Committee, and authority for implementing policy remains with the Superintendent.

The membership, composition, and responsibilities of administrative councils and committees will be defined by the Superintendent and may be changed at his/her discretion. However, the School Committee wishes to be kept informed of the establishment and dissolution of these groups as well as their membership and their purpose.

Expenses incurred by such groups for consultative services, materials, and any investigative travel will be paid by the Minuteman Regional Vocational Technical School, but only within budgetary allotments and when approved in advance by the Superintendent.

CEA SCHOOL COUNCIL

The School Committee believes that the school is the key unit for educational improvement and change and that successful school improvement is best accomplished through a school-based decision-making process.

As enacted by the state legislature in the Education Reform Act of 1993, a School Council shall be established in each school to advise the Principal in specific areas of school operation. The Principal, except as specifically defined in the law, shall have the responsibility for defining the composition of, and forming the group, pursuant to a representative process approved by the Superintendent and School Committee.

The law outlines four major areas of responsibility for councils. School councils are to assist principals in:

1. Adopting educational goals for the school that are consistent with local educational policies and statewide student performance standards
2. Identifying the educational needs of students attending the school
3. Reviewing the annual school building budget
4. Formulating a school improvement plan

For any school that contains grades nine to twelve, inclusive, the council shall review the student handbook each spring to consider changes in disciplinary policy to take effect for the following school year.

In addition, the law states that "nothing contained in this section shall prevent the school committee from granting a school council additional authority in the area of educational policy; provided, however, that school council shall have no authority over matters which are subject to chapter one hundred and fifty E of the General Laws."

The composition of the School Council will conform to MGL and DESE Regulations.

The Principal shall, by law, serve as co-Chairperson of the School Council. Keeping within the guidelines of the law, he/she has the responsibility for defining the composition and overseeing the formation of the council pursuant to a representative process approved by the superintendent and school committee. As co-chair of the council, the principal is also responsible for convening the first meeting of the council. At this meeting, the other co-chair is to be selected.

The co-Chairperson will be elected annually by the council members at its first meeting of the school year subsequent to the election of new council members. The co-Chairperson will be responsible for the preparation of the agenda for the council meetings.

The School Council shall meet at least four times during the school year. Meetings will be held outside of school hours. At its first meeting of the school year, the council will set its calendar of regular meetings for the year. Where circumstances warrant, the council may choose to call additional meetings.

Consensus shall be used by School Council as the primary method to resolve issues and to formulate recommendations. Votes by majority may be taken at the discretion of the Principal and Robert's Rules of Order shall prevail if there are questions of procedure.

All meetings of the School Council shall conform to the Open Meeting Law, Sections 23 A, B, and C, which stipulates that all meetings be open to the public, that meetings be posted at least 48 hours in advance, and that minutes of the meeting shall be maintained as required. The scope of the School Council does not require, and therefore does not qualify for, executive session.

The Superintendent shall receive agendas and minutes of all School Council meetings.

CHA DEVELOPMENT OF REGULATIONS

The Superintendent will be responsible for specifying required actions and designing the detailed arrangements under which the Minuteman Regional Vocational Technical School District will be operated in accordance with School Committee policy. These detailed arrangements will be designed to implement policies, goals and objectives of the Committee and will be one of the means by which the school system will be governed.

In the development of regulations, the Superintendent may involve at the planning stage those who would be affected by the regulations, including staff members, students, parents, and the public. The Superintendent must weigh with care the counsel given by representatives of staff, student and community organizations. The Superintendent will inform the Committee of such counsel in presenting pertinent reports of regulations and in presenting regulations for Committee approval.

As long as the Superintendent operates within the guidelines of policy adopted by the Committee, regulations may be issued without prior Committee approval unless Committee action is required by law, or the Committee has specifically asked that certain types of regulations be given Committee approval, or the Superintendent recommends Committee approval in light of strong community attitudes or probable staff reactions.
