JF ADMISSIONS POLICY

Please call the Guidance Office at the school if you would like this document translated into a language other than English.

I. INTRODUCTION

Minuteman High School (Minuteman) is a public vocational technical school located on a scenic campus in Lexington and Lincoln, Massachusetts. Minuteman Regional Vocational Technical School District (District) is accredited by the New England Association of Schools and Colleges. Minuteman is committed to providing quality vocational technical programs to the students of the communities it serves.

An admission process is necessary in vocational technical schools where space is a limiting factor. Vocational technical program majors are designed and equipped to serve a specific maximum number of students safely. Consequently, a complex of such shops and laboratories may lack both the space and flexibility to accommodate all applicants during some years. Therefore, a selection process is necessary. All applicants to grades nine through twelve at Minuteman will be evaluated using the criteria contained in this Admissions Policy.

II. EQUAL EDUCATION OPPORTUNITY

The District admits students and makes available its advantages, privileges, and courses of study without regard to race, color, sex, religion, national origin, sexual orientation, disability, homeless status, or gender identity and expression, ancestry, genetic information, or marital/parental status.

Students with limited English proficiency may request that a qualified representative from Minuteman assist them in completing the necessary forms and all necessary forms will be provided in the applicants preferred language upon request. Applicants may also request an interpreter during the entire application and admissions process.

Students with disabilities may voluntarily self-identify for the purpose of requesting reasonable accommodations during the entire application and admission process.

Information on limited English proficiency and disability submitted voluntarily by the applicant, for the purpose of receiving assistance and accommodations during the entire application and admission process, will not adversely affect the applicant's admission to the school.

III. ELIGIBILITY

RESIDENT STUDENTS

Any eighth, ninth, or tenth grade student who is a resident of the District, and who expects to be promoted by their local district into the grade they seek to enter, is eligible to apply for fall admission or admission during the school year, subject to availability of openings at Minuteman. Resident students will be evaluated using the criteria contained in this Admissions Policy. The District gives priority for admission to resident students according to this policy, the District Regional Agreement, and state laws and regulations.

NONRESIDENT STUDENTS

Students who are not residents of the District are given lowest priority in the selection process.

All nonresident applicants must file a *Chapter 74 Vocational Technical Nonresident Student Tuition Application* with the Superintendent of their district-of-residence in accordance with the Massachusetts Department of Education *Guidelines for the Vocational Technical Education Program Nonresident Student Tuition Process* pursuant to M.G.L. c. 74.

<https://www.doe.mass.edu/ccte/cvte/admissions/default.html> April 1st is the deadline for this application to be filed with the local Superintendent of the nonresident community. Nonresident students will be evaluated using the criteria contained in this Admissions Policy. The Superintendent will submit a recommendation to accept or not accept out of district applications on a yearly basis. The School Committee will vote on this recommendation.

SCHOOL CHOICE:

The District does not participate in the School Choice Program, unless the School Committee's annual required vote on the program determines otherwise.

McKinney – Vento: The District complies with federal law to ensure that all homeless children and youth have equal access to the same free, appropriate public education as provided to other children and youth. Minuteman has a designated staff person to serve as the Homeless Education Liaison, whose role it is to assist homeless children to enroll in school and to receive the educational

services for which they are eligible, and to ensure that homeless youth participate fully in the opportunities at Minuteman without segregation or stigmatization.

Home Schooled Students: Students presently being formally home schooled may apply for admission to Minuteman, including admission to Minuteman during the school year, provided all Admissions Policy Criteria are followed. Home schooled students will be evaluated on a recommendation at 35%, work sample, portfolio, or grades from an online class with a course description at 35%, and individual student interview at 30%.

IV. ORGANIZATIONAL STRUCTURE

The District is governed by a Regional Agreement that recognizes a School Committee composed of one member with residency consideration from each member town. The District is administered by a superintendent. It is the responsibility of the District Superintendent to supervise the administration of the policies and procedures required to admit and enroll applicants in conformity with this Admissions Policy. The District has an admissions committee assigned by the Superintendent.

To ensure that students from the member towns can attend the school, the District will establish an annual minimum number of seats designated for each member town. Annually, the Admissions Committee makes a recommendation to the School Committee regarding the number of seats available for new students for the coming school year, and minimum number of seats reserved for each member town. Using the voting structure required by the Regional Agreement the school committee will vote on the slot allocation yearly at the June meeting. These allocations may vary from year to year.

Minuteman has an Admissions Director appointed by the Superintendent. Responsibilities of the Admissions Director include:

- a. Determination of standards for admission in a manner consistent with state and federal law and with approval of the school committee
- b. Development and implementation of admission procedures
- c. Providing guidance to staff involved in the admissions process on implicit bias and best practices to avoid it

V. RECRUITMENT

Minuteman disseminates information about the school through a variety of methods.

- Minuteman Staff provide informational presentations on-site to 8th grade classes in member town schools from September to November as well as through email and mail.
- Interested students from the member town schools visit Minuteman during scheduled tour days.
- An Open House is scheduled during the fall and/or winter. Prospective students and their parents/guardians have an opportunity to visit all the vocational-technical programs and speak with teachers about course offerings.
- Parents/guardians may request individual visits, mini-tours and informational sessions.
- Prospective students are also given the opportunity to shadow a present Minuteman student within their desired career/technical major. The visiting student may shadow a single career/technical major during a shadow day. All shadow days must be preapproved by the Admissions Director and a parent/guardian.
- Prospective students and their parents/guardians are encouraged to visit the Minuteman website (www.minuteman.org) for a complete viewing of the school's educational philosophy and mission, academic and vocational-technical programming, and campus life activities. VI. APPLICATION PROCEDURES FOR ADMISSION INTO THE 9TH, 10TH, OR 11TH GRADE

An applicant must complete a multi-step process for applying to Minuteman for fall admission to the 9th, 10th, or 11th grade. The application process is started by filling out and submitting online an application found on the www.minuteman.org website.

The Admissions Director may require an applicant verify legal residency within the District.

Completed applications shall include several documents:

- a. For applications to grade 9: Once Minuteman receives a completed application, Minuteman will send the applicant's present school a "Request for Records" form. This is an official request to receive information related to the Selection Criteria (Section VII). This includes math, ELA, science and social studies grades from 7th and 8th grade (to date), 7th and 8th grade Attendance Report of absences (to date), 7th and 8th grade Discipline Record (to date), and a recommendation from any school staff or other adult qualified to assess the student's potential for success in vocational technical education.
- b. For applications to grade 10, or 11: Once Minuteman receives a completed application, Minuteman will send the applicant's present school a "Request for Records" form. This is an official request to receive information related to the Selection Criteria (Section VII). From the previous two years, this includes math, ELA, science and social studies grades, Attendance Report of absences, Discipline Record, and a recommendation from any school staff or other adult qualified to assess the student's potential for success in vocational technical education.
- c. After all of these records are received by Minuteman, the student/parent/guardian will be contacted for an interview at the school. This interview is the final step in the application process. If the applicant or parent/guardian cannot provide transportation to Minuteman for the interview, a representative from Minuteman will go the local school to interview the applicant or coordinate arrangements for an interview.

FOR TRANSFER ADMISSION DURING THE CURRENT SCHOOL YEAR INTO THE 9TH, 10TH, OR 11TH GRADE

Students from other schools are eligible to apply for transfer admission to Minuteman during the current school year to grades 9 through 11. Transfer students will be evaluated using the criteria contained in this Admissions Policy.

The Admissions Director may require an applicant to verify legal residency within the District.

FOR TRANSFER ADMISSION FROM ANOTHER CHAPTER 74 APPROVED PROGRAM

Applications from students who are enrolled in a Chapter 74 state-approved vocational technical education program in another school (transfer students) will be considered for admission (including admission during the school year), if they wish to pursue the same program of study at Minuteman.

town applicants scores will be ranked from high to low. Only qualified applicants are offered admission.

A qualified applicant is defined as a student who has completed the full admissions process which includes the completed application form, receipt of all required records, a Minuteman Recommendation Form, and an interview with the Admissions Office.

All qualified member town applicants who meet the February 15th deadline will be reviewed by March 1st. They will be rank ordered by town and offered admission based on the slots allocated to their town, as approved by the MMRVTSD School Committee. The initial offers of admission will be given to the minimum number of seats set aside for each member town in accordance with the approved slot allocation for each member town (see section IV). Students will have one week from their offer of admission to respond.

If a member town does not have enough qualified applicants to fill their slot allocation as of February 15th, their seats will be offered to the qualified member town applicants based on the ranked order of the pool of remaining qualified applicants.

Students will accept or decline their offer of admission. This will impact available seats.

1. As seats become available, they will be offered to the pool of remaining qualified member town applicants, who met the February 15th deadline, based on the ranked order of their application score. These students will have priority for any seat that becomes available until the pool is exhausted.
2. If the pool of qualified member town applicants who met the February 15th deadline is exhausted and a seat becomes available, it will be offered to a qualified member town applicant who **completed the application process after February 15th** based on the ranked order of their application score.
3. If a seat becomes available after March 15th and all qualified member town applicants have been offered admission, regardless of when they applied, it will be offered to a qualified non-member town applicant based on the ranked order of their application score in accord with MGL Chap 74 Non-Resident regulations.

In all of the above scenarios, students will have one week from their offer of admission to respond.

Tiebreakers

In the event of tied scores at any point in the process, the impacted students will be assigned a number and will be chosen randomly for admission.

In addition, they must have passed courses in ELA, or the equivalent, and math for the school year immediately preceding their enrollment at Minuteman. Applicants failing either or both subjects are required to enroll in and pass comparable summer school course(s) provided by their local school district or another school district, prior to admission into the District.

Acceptance and enrollment at Minuteman is based upon the accuracy and completeness of a student's application. The District reserves the right to revoke its acceptance of any student, at any time, if it determines that the student, the student's parent(s)/guardian(s), or the student's sending school district provided inaccurate, incomplete, or misleading information during the application process.

attendance and punctuality. Students can receive a maximum of 100 total points. The total points accumulated during a vocational/technical rotation translate as follows:

Total Points Accumulated	Earned Letter Grade
90 - 100	A
80 - 89	B
70 - 79	C
60 - 69	D
59 - below	F

At the end of the exploratory period, students will select their program of choice, as well as a second and third choice. Students may be admitted into their first choice program based on the point total they received in all shops during the exploratory program. If a student's point total in all shops combined is so low that they were not placed in their first, second or third choice programs because the programs were filled by students with higher point totals, the student will meet with the guidance counselor who will present a list of programs that have openings. This process continues until all students are placed.

If a nonresident student selects and is admitted into a program that is different than the one for which they have been approved for nonresident tuition, a new Chapter 74 Vocational Technical Education Nonresident Student Tuition Application must be completed and approved for the new Chapter 74 vocational technical education program in accordance with the MA Department of Elementary & Secondary Education *Guidelines for the Vocational Technical Education Program Nonresident Student Tuition Process* pursuant to M.G.L. c. 74: <https://www.doe.mass.edu/ccte/cvte/admissions/default.html> guidelines and upon written approval of the sending district.

Students who enroll in Minuteman after grade 9 may explore vocational technical programs that have openings, before making a program selection. Students are evaluated by each vocational technical teacher during the period of exploration. If the number of enrollees seeking a program major exceeds the number of openings, the student's rank order would determine the enrollee or enrollees who are placed in the program major.

JFABD HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES

As required by law, the district will work with homeless children and youth and unaccompanied youth [1](#) (collectively, "homeless students") as well as their families or legal guardians to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs, school nutrition programs, summer programming and extracurricular activities.

Homeless students are defined as lacking a fixed, regular and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing, economic hardship, or similar reason
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations.
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals.
5. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings; and
7. Migratory children living in conditions described in the previous examples.

Students Remaining in Schools of Origin

It is presumed to be in the best interest of homeless students to remain in their schools of origin, i.e. the school that the student was attending at the time he or she became homeless, or the last school the student attended prior to becoming homeless. Homeless students may continue to attend their school of origin for as long as they remain homeless or until the end of the academic year in which they obtain permanent housing. For homeless students who complete the final grade level served by the school of origin, the term "school of origin" shall also include the receiving school in the same school district educating students at the next grade level.

Homeless students are entitled to transportation comparable to that provided for all other students attending school in the district. The district will transport students who are sheltered or temporarily residing within the district to the students' school of origin. For homeless students attending a school of origin located outside the district in which the student is sheltered or temporarily residing, the district in which the school of origin is located will coordinate with the district in which the student is sheltered or temporarily residing to provide the transportation services necessary for the student, and these districts will divide the cost equally. Formerly homeless students who find permanent housing mid-school year will continue to receive transportation services until the end of the school year.

Students Enrolling in District Where Sheltered or Temporarily Residing

Parents or guardians may elect to enroll homeless students in the school district in which the student is sheltered or temporarily residing, rather than having the student remain in the school of origin. Enrollment changes for homeless students should take place immediately.

If homeless students are unable to provide written proof of their shelter or temporary residence in the district, the homeless liaison will work with the family seeking enrollment to determine homelessness. Information regarding a homeless student's living arrangement shall be considered a student education record, and not directory information. Records containing information about the homeless student's living arrangement may not be disclosed without the consent of the parent or satisfaction of another student-privacy related exemption.

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. After enrollment, the district will immediately request available records from the student's previous school.

Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to homeless families on the same terms as families who reside in the district. Accordingly, the district will provide transportation services to school in a manner comparable to the transportation provided for all other students in the district.

Dispute Resolution

If the district disagrees with a parent or guardian's decision to keep a student enrolled in the school of origin and considers enrollment in the district where the student is sheltered or temporarily residing to be in the student's best interest, the district will explain to the parent, in writing and in a language the parent can understand, [2](#) the rationale for its determination and provide parent with written notice of their rights to appeal the district's determination to the Massachusetts Department of Elementary and Secondary Education [3](#). During the pendency of any such appeal, the student should remain enrolled in the school selected by the parent or guardian, receiving transportation to school and access to other available services and programs.

The Massachusetts Department of Elementary and Secondary Education's Advisory on Homeless Education Assistance contains additional information about educating homeless students and the appeal process. This advisory is available at the following link: <http://www.doe.mass.edu/mv/haa/mckinney-vento.docx>

Homeless Liaison

The Superintendent shall designate an appropriate staff person to be the district's liaison for homeless students and their families. The district's liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students in locations such as schools, family shelters and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students. The liaison shall ensure district staff receive professional development and other support on issues involving homeless students.

JFABE EDUCATIONAL OPPORTUNITIES FOR MILITARY CHILDREN

To facilitate the placement, enrollment, graduation, data collection, and provision of special services for students transferring into or out of the District because of their parents or guardians being on active duty in the U.S. Armed Services, the District supports and will implement its responsibilities as outlined in the Interstate Compact on Educational Opportunity for Military Children. The district believes it is appropriate to remove barriers to educational success imposed on children of military families resulting from frequent moves required by parents' or guardians' military deployment.

Definitions

Children of military families: School aged children, enrolled in kindergarten through 12th grade, in the household of an active duty member of the uniformed service of the United States, including members of the National Guard and Reserve serving on active duty.

Deployment: The period one month before the service members' departure from their home station on military orders through six months after return to their home station.

Education(al) records: Official records, files, and data directly related to a student and maintained by the school including, but not limited to, records encompassing all the material kept in the student's cumulative folder.

Eligible students are children of military families as well as the children of veterans who have been severely injured and medically discharged, and children of active duty personnel who died on active duty. Children of retired active duty personnel are also eligible to receive services for one year following the discharge due to severe injury, or the retirement or death of an active military parent. The Compact does not apply to children of inactive Guard or Reserves, veterans and retired personnel not included above, or U.S. Department of Defense personnel and other federal civil service employees and contract employees.

The District's responsibilities to eligible students include the following:

- Sending schools must send either official or unofficial records with the moving students and District receiving schools must use those records for immediate enrollment and educational placement.

- Upon enrollment of an eligible student, the receiving school must request official records and the sending schools shall respond within 10 days with the records.
- Immunization requirements of the District may be met within 30 days from the date of enrollment (or be in progress).
- Receiving schools must initially honor placement of students in all courses from the sending school. These include, but are not limited to, Honors, International Baccalaureate, Advanced Placement, vocational-technical, and career pathway courses if those courses are offered in the receiving school and space is available. The receiving schools must also initially honor placement of like programs to those of the student in the sending state, including, but not limited to, Gifted and Talented programs, and English as a Second Language programs. Receiving schools are not precluded from performing subsequent evaluation to ensure the appropriate placement and continued enrollment of the student in courses and programs.
- In compliance with federal law, the district will assume financial and programmatic responsibility for the special education programs of students with existing IEPs drafted in other states.
- As appropriate, the District will exercise the right to waive prerequisites for all courses and programs, while also maintaining its right to re-evaluate the student to ensure continued enrollment, also as deemed appropriate.
- Students of active duty personnel shall have additional excused absences, as necessary, for visitations relative to leave or deployment.
- An eligible student living with a noncustodial parent or other person standing in loco parentis shall be permitted to continue to attend the school in which he or she was enrolled while living with the custodial parent or guardian, without any tuition fee imposed.
- The District high school will accept exit or end-of-year exams required from the sending state, national norm-referenced tests, or alternate testing instead of testing requirements for graduation in the District (receiving state.) If this is not possible, the alternative provision of the Interstate Compact shall be followed to facilitate the on-time graduation of the student in accordance with Compact provisions.

JFABF EDUCATIONAL OPPORTUNITIES FOR CHILDREN IN FOSTER CARE

The purpose of this policy is to ensure the educational stability of students in foster care. Educational stability has a lasting impact on students' academic achievement and wellbeing, and the School Committee is committed to supporting all efforts to ensure that students in foster care have equal access to high-quality, stable educational experiences from preschool (if offered) through high school graduation.

Irrespective of the location of a foster care placement, students in foster care will continue to attend their school of origin, unless after a collaborative decision-making process, it is determined to be in the student's best interest to enroll in and attend school in the district in which the student resides in foster care. Enrollment of students in the district where they reside in foster care will take place immediately upon such a determination.

The district has designated a point of contact for students in foster care. The district and the point of contact will collaborate with DCF to ensure that students can access transportation and the other services to which they may be entitled.

Best Interest Determination

Decisions about whether a student in foster care should continue to attend the school of origin should be made collaboratively by DCF, the student (as appropriate), the student's family and/or foster family (or, if different, the person authorized to make educational decisions on behalf of the student), the school and district of origin, and (when appropriate) the local district where the student is placed. Best interest determinations should focus on the needs of each individual student and account for unique factors about the student and his or her foster care placement. Every effort should be made to reach agreement regarding the appropriate school placement of a student in foster care; however, DCF will finalize the best interest determination if the relevant parties cannot agree on the best school for the student to attend.

The district can seek review of DCF's decision by utilizing a Foster Care School Selection Dispute Resolution Process established by DESE and DCF. Decisions made through this process are not subject to review. To the extent feasible and appropriate, the district will ensure that a child remains

in his or her school of origin while the disputes are being resolved to minimize disruptions and reduce the number of moves between schools.

Transportation

The district of origin must collaborate with DCF on how transportation will be arranged and provided to ensure that students in foster care who need transportation to remain in their school of origin will receive such transportation while they are in foster care.

Transportation options may include using Title I funds, establishing regional collaborations among districts, coordinating with existing routes for transportation, seeking help from foster parent(s), etc. Absent other agreements between the district and DCF, the district of origin is responsible for providing transportation to and from the school of origin.

Immediate Enrollment

If it is in the best interest of a student in foster care to leave the school of origin, the student must be immediately enrolled in the district in which he or she resides in foster care. During enrollment of students in foster care, DCF representatives will present the district with a form indicating that the student is in foster care, along with a state-agency identification badge.

If the student does not have immediate access to immunization records, the student shall be permitted to enroll under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's address confidentiality program when necessary. STUDENT CONDUCT
(including grounds for exclusion or expulsion)

Good citizenship in schools is based on respect and consideration for the rights of others.

Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect school authority, to conform to school rules and to those provisions of law that apply to their conduct.

The exclusion or expulsion of a student from school will be in accordance with Massachusetts General Laws, Chapter 71, Section, 37H. The grounds for exclusion or expulsion include but are not limited to the following:

- (a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun, a knife, or their facsimile, or anything used in the commission of assault and battery; or a controlled substance as defined in Chapter 94 C, including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.
- (b) Any student who assaults a principal, assistant principal, teacher, teacher's aide, or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.
- (c) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at a hearing before the principal. After said hearing, a principal may, in his/her discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).

student shall have ten days from the date of the expulsion in which to notify the Superintendent of his/her appeal. The student has the right to counsel at a hearing before the Superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.

Note:

A student who is found to have assaulted another student is subject to suspension by the administration and expulsion by the School Committee.

All Students are expected to meet the requirements for behavior as set forth in the Student / Parent Handbook. Federal and state laws require that additional provisions be made for students who have been found by an evaluation team to have special needs and whose program is implemented under an Individualized Education Plan (IEP). It is the policy of the District to conform to federal and state laws with respect to the discipline of students with disabilities.

JICFB BULLYING

PURPOSE

It is the goal of the Minuteman District School Committee and Minuteman to promote a learning atmosphere for students free from all forms of bullying. Because bullying affects not only students who are targets but also those who participate and witness such behavior, it is detrimental to student learning and achievement and will not be tolerated by Minuteman.

Minuteman prohibits all forms of harassment, discrimination and hate crimes based on race, color, religion, national origin, ethnicity, sex, sexual orientation, age or disability. The civil rights of all school community members are guaranteed by law. The protection of those rights is of utmost importance and priority to our school district. Minuteman also prohibits bullying of school community members for reasons unrelated to their race, color, religion, national origin, ethnicity, sex, sexual orientation, age or disability. Further, Minuteman will also not tolerate retaliation against persons who take action consistent with this policy.

DEFINITION OF BULLYING

Bullying is the repeated use by one or more students of a written, verbal or electronic expression or a physical act or gesture or any combination thereof, directed at a victim that: (a) causes physical or emotional harm to the victim or damage to the victim's property; (b) places the victim in reasonable fear of harm to himself or herself or of damage to his/her property; (c) creates a hostile environment at school for the victim; (d) infringes on the rights of the victim at school; or (e) materially and substantially disrupts the education process or the orderly operation of a school. For the purposes of this policy and related procedures, bullying shall include cyber-bullying.

DEFINITION OF CYBER-BULLYING

Cyber-bullying is bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo electronic or photo optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications. Cyber-bullying shall also include (a) the creation of a web page or blog in which the creator assumes the identity of another person or (b) the knowing impersonation of another person as the author of posted content or messages, if the

creation or impersonation creates any of the conditions enumerated in clauses (a) to (e), inclusive, of the definition of bullying. Cyber-bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in clauses (a) to (e), inclusive, of the definition of bullying.

SCOPE

Bullying actions will include, when appropriate, referral to law enforcement agencies or other state agencies. Minuteman will support this policy in all aspects of its activities, including its curricula, instructional programs, staff development, extracurricular activities and parental involvement.

This policy applies to all sites and activities under the supervision and control of the district, or where it has jurisdiction under the law, including school grounds, property immediately adjacent to school grounds, at a school-sponsored or school related activity, function or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school, or through the use of technology or an electronic device owned, leased, or used by a school district or school. The policy applies to all students, school committee members, school employees, independent contractors, school volunteers, visitors, parents and legal guardians of students, whose conduct occurs on school premises or in school-related activities, including school-related transportation.

Bullying is also prohibited at a location, activity, function or program that is not school-related or through the use of technology or an electronic device that is not owned, leased or used by the district, if the act or acts in question create a hostile environment at school for the victim, infringe on the rights of the victim at school or materially and substantially disrupt the education process or the orderly operation of the school.

The School Committee expects administrators to make clear to students and staff that bullying will not be tolerated and will be grounds for disciplinary action up to and including suspension and expulsion for students, and termination for employees.

All staff members are required to report any bullying or harassment they see or learn about. The district will promptly and reasonably investigate allegations of harassment, including bullying. The Principal or his/her designee will be responsible for handling all complaints by students alleging

harassment or bullying. Retaliation against a person who reports bullying, who provides information during an investigation of bullying, or who is a witness to or has reliable information about bullying, is prohibited.

Nothing in this policy is designed or intended to limit the District's authority to discipline or take remedial action under General Laws Chapter 71, §37H or other statutes or regulations, or in response to violent, harmful, or disruptive behavior, regardless of whether this policy covers the conduct. Reports of cyber-bullying by electronic or other means, occurring in or out of school will be reviewed and, when a nexus to work or school exists, will prompt disciplinary action.

PROCEDURES

The Superintendent will develop administrative guidelines and procedures for implementation of this policy, consistent with the requirements of M.G.L. Chapter 71 §37 O and related guidelines issued by the Department of Elementary and Secondary Education. The Superintendent will publish disciplinary policies in Student / Parent Handbooks, which shall prohibit bullying and shall include the bullying prevention and intervention plan required by Chapter 71, §37O of the Laws of the Commonwealth. Student / Parent Handbooks shall include age-appropriate summaries of the student-related sections of the district's bullying prevention and intervention plan.

The possession of a dangerous weapon on school property or at any school event or activity is strictly prohibited, except for law enforcement officials who are exercising their professional responsibilities. All student trips which include late night or overnight travel must have approval of the School Committee prior to raising funds or scheduling the trip. The School Committee will also consider the educational value of the trip in relation to the cost prior to granting initial approval. Overnight trips should offer significant educational benefits to students that clearly justify the time and expense of the trip. Such trips should be appropriate for the grade level.

Final approval will not be granted until all preparations for the trip have been completed including, but not limited to, all logistical details involving transportation, accommodation arrangements and fundraising efforts. The School Committee requires that final approval be sought no less than 30 days prior to the scheduled trip dates.

Teachers and other school staff are prohibited from soliciting for privately run trips through the school system and in the schools. The Superintendent or his/her designee is responsible for ensuring that student travel planning is carried out to ensure the safety of students, including but not limited to the following conditions:

1. Transportation

The use of vans or private automobiles for trips planned to include late night or overnight student travel is prohibited. Late night or overnight trips will use commercial motor coaches.

Trips planned to include late night or overnight student travel will include a pre-trip check of companies, drivers, and vehicles. CORI checks will be conducted in accordance with Massachusetts General Laws Chapter 71, section 38R.

The Superintendent or designee will ensure that the selected carrier is licensed for passenger transportation by the Federal Motor Carrier Safety Administration (FMCSA). The district will not contract with any carrier that has a safety rating of "conditional" or "unsatisfactory." FMCSA ratings are available at <http://www.saferys.org/>.

The contract with the carrier will prohibit the use of subcontractors unless sufficient notice is given to the district that allows verification of the subcontractor's qualifications.

2. Trip Scheduling

Overnight accommodations should be made in advance with student safety and security in mind. Whenever possible, trip schedulers should avoid planning student travel between the hours of midnight and 6:00 a.m., due to the increased risk of vehicular accidents during this time period.

Whenever possible, overnight trips should be scheduled on weekends or during school vacations to minimize lost classroom time. Non-academic field trips are considered "optional school programs" and do not count toward meeting structured learning time requirements. (Refer to the Massachusetts Department of Education publication Student Learning Time Regulations Guide.)

Trip itineraries must leave enough time for drivers to rest in conformity with federal hour-of-service requirements and common sense.

JJIF CONCUSSION/HEAD INJURY POLICY

The purpose of this policy is to provide information and standardized procedures for persons involved in the prevention, training management and return to activity decisions regarding students who incur head injuries while involved in extracurricular athletic activities¹ including, but not limited to, interscholastic sports, in order to protect their health and safety as required by Massachusetts law and regulations. The requirements of the law apply to all public middle and high schools, however configured, serving grades six through high school graduation.

Minuteman has established a policy and procedures to provide concussion education for administration, faculty, athletic department staff, parents and students. This document defines procedures for staff to follow in managing head injuries, and outlines school policy as it pertains to return both to academics and to athletic play after concussion.

Minuteman seeks to provide a safe return to activity for all athletes after injury, particularly after a concussion. Procedures have been developed to aid in ensuring that concussed athletes are managed appropriately. These include identification of concussed athletes, appropriate medical referral for treatment and follow-up, academic assistance, and insuring full recovery prior to return to athletic activity and full academic load.

In addition to any training required by law, the following persons shall complete one of the head injury safety training programs approved by the Massachusetts Department of Public Health (DPH) as found on its website: coaches; certified athletic trainers; trainers; volunteers; school and team physicians; school nurses; athletic directors; directors responsible for a school marching band;

¹ Extracurricular Athletic Activity means an organized school sponsored athletic activity generally occurring outside of school instructional hours under the direction of a coach, athletic director or marching band leader including, but not limited to, Alpine and Nordic skiing and snowboarding, baseball, basketball, cheer leading, cross country track, fencing, field hockey, football, golf, gymnastics, horseback riding, ice hockey, lacrosse, marching band, rifle, rugby, soccer, skating, softball, squash, swimming and diving, tennis, track (indoor and outdoor), ultimate Frisbee, volleyball, water polo, and wrestling. 2. Each year, PRIOR to the commencement of practice or competition, the student and parent shall provide a signed, current pre-participation form which provides a comprehensive health history including history of concussions, head, face or cervical spine injury history.

This policy shall address sports-related head injuries occurring in extracurricular athletic activities. It will also be applied to all head injuries that occur in school.

This policy and its procedures will be reviewed every two years after its adoption at a minimum, or more often as necessary, with affirmation sent to the DPH to include any possible revisions.

The Superintendent shall maintain or cause to be maintained complete and accurate records of the district's compliance with the requirements of the Concussion Law, and shall maintain the following records for three years or, at a minimum, until the student graduates, unless state or federal law requires a longer retention period:

JLCD ADMINISTERING MEDICINES TO STUDENTS

Medication may not be administered to students while at school unless such medicine is given to them by the school nurse acting under specific written request of the parent or guardian and under the written directive of the student's personal physician, dentist, nurse practitioner, or physician's assistant (see below for exceptions). If a student has been approved for self-administration, a student who needs medication during the school day may be reminded to take the medicine by the school nurse or other individual designated by the school nurse in the student's medical administration plan. This provision only applies when the school nurse has a medical administration plan in place for the student. No one but the school nurse, and those others listed in the medical administration plan acting within the above restriction, may give any medication to any student.

Exceptions:

The school District may, in conjunction with the school physician and District nurse leader, stock certain over-the-counter medications such as acetaminophen, ibuprofen, and calcium carbonate. The school physician shall write standing medication orders yearly for the District. The school nurse may administer these medications as long as the parent or guardian has provided written permission on an annual basis.

The school District shall, through the District nurse leader, register with the Department of Public Health and train personnel in the use of epinephrine auto-injectors to be administered if needed during the school day or school-sponsored event.

The school District may, in conjunction with the school physician and the school nurse leader, stock nasal naloxone (Narcan). Trained medical personnel and first responders may administer nasal naloxone to individuals experiencing a life-threatening opiate overdose in a school setting, including school-sponsored events.

If the school District wishes medical personnel to train non-medical staff in the administration of nasal naloxone, the Superintendent shall ensure that medical personnel have a written protocol which complies with medical directives and regulations from the Department of Public Health.

JLD GUIDANCE PROGRAM

Guidance is defined as helping individuals understand themselves in the light of their abilities, aptitudes, interests, attitudes, strengths, and limitations. The guidance process should assist students in the development of their potential; their decisions relating to personal, educational, and vocational matters, and also in becoming capable of mature self-guidance.

Guidance counselors and other personnel shall represent to students a broad spectrum of education and career opportunities. School personnel shall not present race, color, sex, gender identity, religion, national origin or sexual orientation as limiting factors in career determination. No materials, tests, or procedures shall be employed for guidance purposes that discriminate and/or limit choices on the basis of race, color, sex, gender identity, religion, national origin or sexual orientation.

The Minuteman District's guidance program will be based on this definition and developed from these broad fundamental principles:

1. Individuals are different from one another in their capabilities, aptitudes, interests, needs, goals, desires and values.
2. Conditions having a bearing on the development of a student's potential may be improved. Equality of educational opportunity will benefit the individual and society.
3. Guidance is a continuous and developmental process. Every experience of the individual influences his/her performance in some way.
4. Guidance does not propose to program an individual's course of action but rather tries to assist him/her in arriving at his/her own satisfactory solutions. Guidance services are available to all students and will include testing and assessment, advice and assistance with: academic course and career and technical education program placement; individual student career plan development; appropriate internship or cooperative education site selection; appropriate employment and/or post-secondary education opportunity identification and selection; transition plan development; course selection; study skills development, as well as consultation services and personal development guidance where needed. The Guidance Office will manage student grades, transcripts, education plans,

JRA STUDENT RECORDS

In order to provide students with appropriate instruction and educational services, it is necessary for the school system to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations (603 CMR 23.00).

The Principal and Superintendent of schools shall insure that student records under their supervision are kept physically secure, that authorized school personnel are informed of the provisions of 603 CMR 23.00 and M.G.L. c. 71, § 34H and are educated as to the importance of information privacy and confidentiality; and that any computerized systems employed are electronically secure.

The temporary record of each student enrolled on or after June 2002 will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. The student's transcript may only be destroyed 60 years following his/her graduation, transfer, or withdrawal from the school system.

The Committee wishes to make clear that all individual student records of the school system are confidential. This extends to giving out individual addresses and telephone numbers.
